                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

   ## Station/Typ

- Motorway fuel station
- Autobahntankstelle
- Station-service sur l'autoroute
- Stacja paliw przy autostradzie
- Distributore in autostrada
- Čerpací stanice na dálnici
- Gasolinera de autopista
- Tankstation aan de autoweg
- АЗС у автострады
- Stație de alimentare pe autostradă

- Station close to motorway
- Autobahnnähe Station
- Station à proximité d'une autoroute
- Stacja przy autostradzie
- stazione vicina all'autostrada
- Čerpací stanice v blízkosti dálnice
- Estación cercana a la autopista
- Station dicht bij de autoweg
- Станция неподалеку от автострады
- Stație autostradă

- Truck stop
- Autohof
- Station-service à proximité de l'autoroute
- Stacja benzynowa (MOP) w pobliżu autostrady
- Autoparco
- Autoservis
- Área de servicio para camiones
- Wegrestaurant, tankstation en garagebedrijf
- Автобаза
- Popas

- Suitable for large trucks
- Für große LKWs geeignet
- Adapté aux poids lourds
- Odpowiednia dla dużych ciężarówek
- Adeguato per grandi TIR
- Vhodnost pro nákladní vozidla
- Adecuada para camiones
- Geschiktheid voor vrachtwagens
- Подходит для грузовых автомобилей большой грузоподъемности
- Potrivit pentru autovehicule transport marfă mari

- Suitable for medium trucks
- Für mittlere LKWs geeignet
- Adapté aux poids lourds moyens
- Odpowiednia dla średnich ciężarówek
- Adeguato per TIR medi
- pro nákladní automobily střední tonáže
- Apto para camiones medios
- Tankstation geschikt voor middelgrote trucks
- Подходит для грузовых автомобилей средней грузоподъемности
- Potrivit pentru autovehicule transport marfă medii

- Suitable for cars
- Für PKWs geeignet
- Adapté aux véhicules légers
- Odpowiednia dla samochodów osobowych
- Adeguato per auto
- pro osobní vozidla
- Apto para automóviles
- Tankstation geschikt voor personenwagens
- Подходит для легковых автомобилей
- Potrivit pentru autovehicule transport persoane

- unmanned fully automatic station
- Unbemannte vollautomatische Station
- station entièrement automatisée
- W pełni automatyczna stacja bez personelu obsługi
- stazione automatizzata senza personale
- Bezobslužná plně automatická stanice
- Estación completamente automática
- Onbemand volautomatisch station
- Автоматическая станция без обслуживающего персонала
- Stație complet automată

## Kraftstoffe / Fuel

- Truck diesel
- Truckdiesel
- Diesel pour poids lourds
- Olej napędowy do samochodów ciężarowych
- Diesel per camion
- Nafta do nákladních vozidel
- Gasóleo para camiones
- Truckdiesel
- Дизель для грузового автомобиля
- Motorine pentru camioane

- Biodiesel
- Biodiesel
- Biodiesel
- Biodiesel
- Biodiesel
- Bionafta
- Biodiesel
- Biodiesel
- Биодизельное топливо
- Biodiesel

- Liquefied Petroleum Gas (LPG)
- Autogas (LPG)
- Gaz de pétrole liquéfié (GPL)
- Gaz (LPG)
- GPL
- Zkapalněný plyn pro pohon automobilů (LPG)
- Autogás (LPG)
- Autogas (LPG)
- Сжиженный газ (СУГ)
- Gaz petrolier lichefiat (GPL)

- AdBlue pump
- AdBlue Zapfsäule
- AdBlue Pompe
- Dystrybutor AdBlue
- AdBlue pompa
- AdBlue - čerpací stojan
- AdBlue surtidor
- AdBlue benzinepomp
- Заправочная колонка AdBlue
- AdBlue pompă

- Bio Diesel mix
- Biodieselmix
- Mélange biodiesel
- Mieszanka biodiesla
- Mix biodiesel
- Směs bionafty
- Biodiesel mix
- Biodieselmix
- Смешанное биодизельное топливо
- Biodieselmix

- Compressed Natural Gas (CNG)
- Erdgas (CNG)
- Gaz naturel (CNG)
- Gaz ziemny (CNG)
- Metano (CNG)
- Zemní plyn (CNG)
- Gas natural comprimido (CNG)
- Aardgas (CNG)
- Природный газ (КПГ)
- Gaz natural comprimat (CNG)

- AdBlue canister
- AdBlue Kanister
- Adblue en bidon
- Kanistry AdBlue
- AdBlue in tanica
- AdBlue - zboží v kanystru
- AdBlue en garrafa
- AdBlue jerrycanartikelen
- Канистра AdBlue
- AdBlue canistră

- Heating oil (Red Diesel)
- Heizöl (Roter Diesel)
- Diesel rouge/GNR
- Olej opałowy (czerwony diesel/red diesel)
- Olio combustibile (diesel rosso)
- Topný olej (červená nafta)
- Gasóleo (Diésel rojo)
- Stookolie (rode diesel)
- Жидкое топливо (красный дизель)
- Ulei combustibil (diesel roșu)

- Liquefied Natural Gas (LNG)
- Erdgas (LNG)
- Gaz naturel liquéfié (GNL)
- Skroplony gaz ziemny (LNG)
- metano (GNL)
- tekutí zemní plyn (LNG)
- Gas natural líquido (GNL)
- Aardgas (LNG)
- Природный газ (СПГ)
- Gaz natural lichefiat (GNL)

## Services

24h

- 24h service
