## Explanations

Only when using a certain road network fees will be charged by the toll provider.

Whether or not discounts of the French motorway companies like to be taken advantage of, needs to be indicated in advance. In some cases additional charges may occur.

Automatic toll recording is not yet possible at the 'Mont Blanc Tunnel' and 'Tunnel du Fréjus'.

Operating companies ALIS\*, CEVM, ALICORNE and ADELAC do not operate a discount system.

According to the eurovignette directive, the maximum rebate of each motorway concessionaire is 13 % of the total net toll consumption of the DKV BOX.

**Remark:** The French motorway companies do not grant discounts when using parking facilities.

\* **ALIS:** The city **Gacé** is closed for vehicles from 7,5 to. Therefore the motorway must be used as alternative route. From 1st May 2008 following discounts are granted:

**Route: Gacé - Orbec and Gacé - Bernay** / Discount: 13 % on all passages of a customer per month (discount per customer!) / Precondition: at least 20 TIS PL passages per calendar month with vehicles of category 3 or 4

\*\* **COFIROUTE:** The diversion sections at Tours are not included in the discount calculation.

\*\*\* **APRR:** Due to the toll reduction for the „Maurice Lemaire“ (APRR) Tunnel, no more discounts will be given after the 1<sup>st</sup> February 2016.

\*\*\*\* **AREA:** advantage of the AREA rebate program causes a monthly fee of €1,6 (excl. VAT) per box, starting with the first transaction made..

\*\*\*\*\* **ARCOUR:** Discounts will be granted only when entering at an ARCOUR-toll station and leaving at an ARCOUR-toll station.

If entering and/or leaving via a toll station operated by another motorway company, no discounts will be granted.
